

Product: Z-Bar Pendant Bird

Location: Midway International Airport, Chicago (Concourse A food court)

Designer/Specifier: Gensler

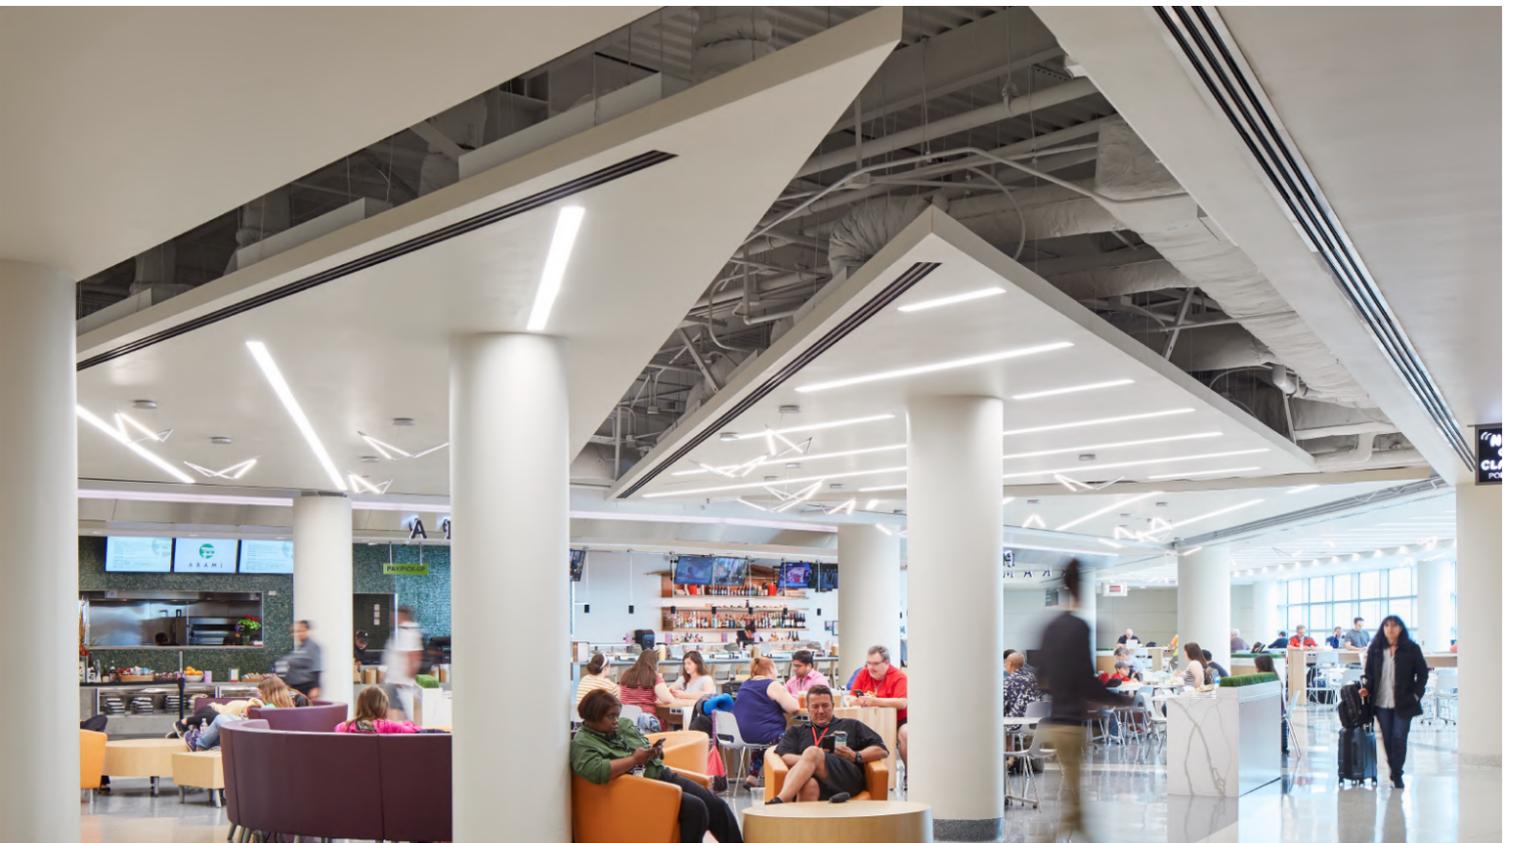

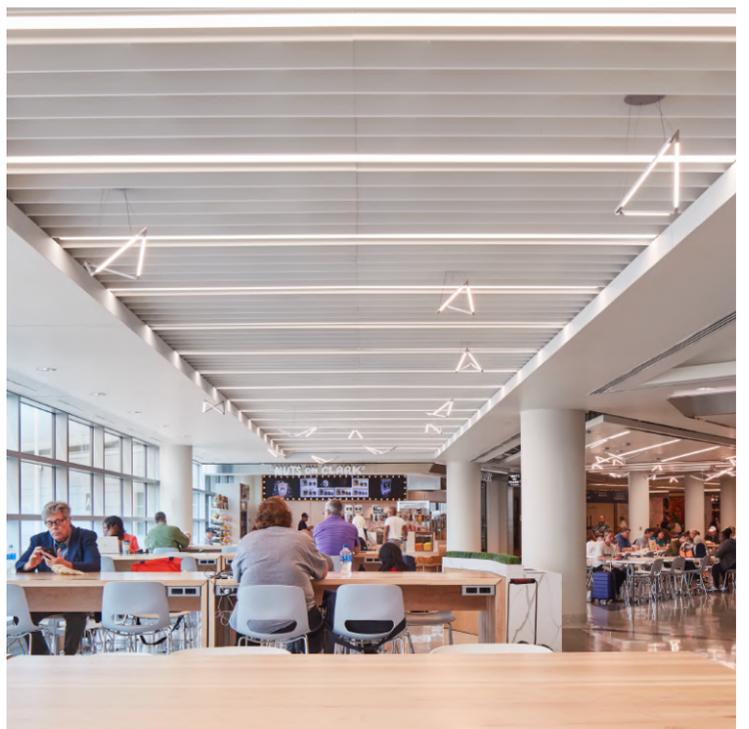

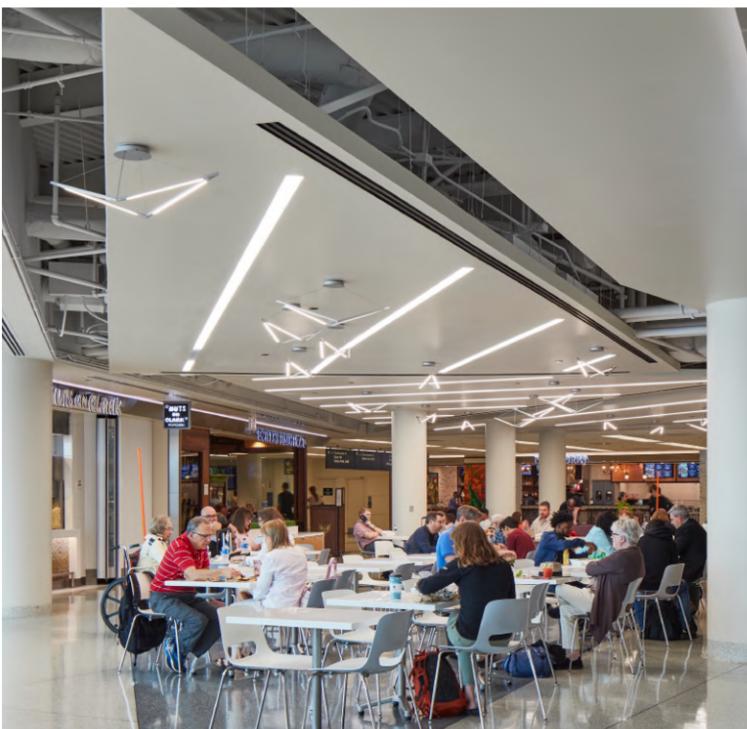

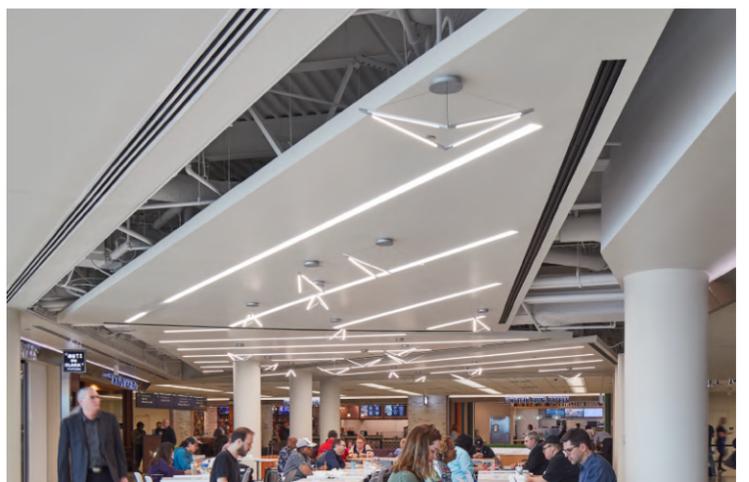

koncept.com/zbarpendantbird

In 2018, Chicago's Midway Airport hosted the beginning of a multi-phase structural makeover. The full redevelopment at Midway will modernize and expand security checkpoints and terminal garages, along with the heavily-trafficked concessions area. Renowned architecture firm, Gensler, were behind the design of the "Concessions Redevelopment Program" – part of a larger revamp effort called the "Midway Modernization Program."

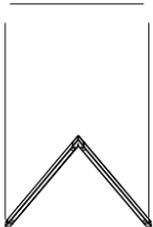

Amongst the new restaurants and retailers, a total of forty-nine silver Z-Bar Pendant Birds now float above travelers in the airport's beloved concession space. Spectators can appreciate the modernity of sleek lines in an abstract bird form: a nod to the theme of flight. This bird motif has been famously addressed in the past at Midway Airport, with Ralph Helmick and Stuart Schechter's *Rara Avis*: a large, suspended sculpture of a cardinal comprised of tiny model airplanes.

Koncept's Z-Bar Pendant is available in a variety of standard configurations and sizes. The modular LED light bars are rotatable and dimmable. The Z-Bar Pendant is an architectural lighting system: designers can create custom configurations based on their project requirements with Koncept's **dedicated web app**. Many configurations are compatible with Koncept's line of acoustic panels.

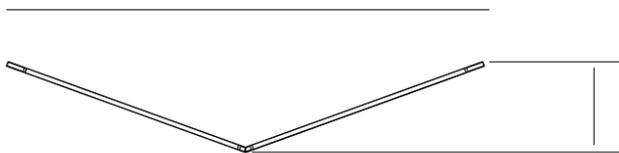

Z-Bar Pendant Bird Dimensions

16-B = 10.5"
24-B = 14.68"
36-B = 22"
48-B = 29.36"

16-B = 34"
24-B = 49"
36-B = 70.5"
48-B = 92"

16-B = 6.75"
24-B = 9.375"
36-B = 13.375"
48-B = 17.375"
