

Meet the Designers

Koncept was born when Peter Ng and his two sons, Kenneth Ng and Edmund Ng, joined forces in 2002 in order to harness years of manufacturing and industrial design experience.

Since then, the family-operated team continues to employ a multidisciplinary approach to design by embracing modern, minimalist lines while maintaining rich functionalities, thus striking the perfect balance between form and function. Together, they designed one of the first practical LED desk lamps on the market- Koncept's signature Z-Bar light, which was selected into the permanent collection of Die Neue Sammlung, the state museum for design and applied arts in Munich, Germany.

The team at Koncept has designed a range of award-winning products which has significantly influenced by pioneering in the LED task lighting design industry. Their works have been featured in major press such as TIME Magazine, Oprah Magazine, and Interior Design Magazine, etc. To date, their designs have won 37 international design awards including the Red Dot Design Award, "The Best Inventions Of The Year" by Time Magazine, iF Design Award, and the Good Design Award.

Environmental Considerations

- Fully recyclable aluminum
- Water-based paint
- LEDs do not contain mercury
- Low power consumption

Details

Splitty

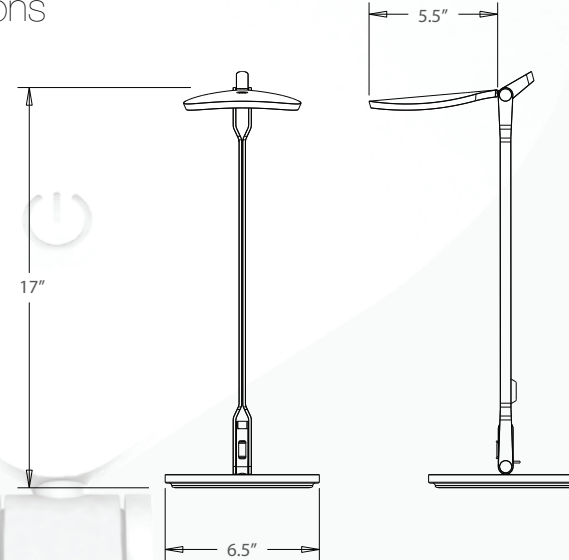

- USB port = 1A
- Various finishes

Splitty Pro

- USB port = 2A
- Black/Silver
- Occupancy sensor

- 7 watts consumption
- 50,000 hours lifespan
- 3,500 K light color
- Continuous dimming
- 10' cord

splitty

By Kenneth Ng, Edmund Ng
2017

2017 Best of NeoCon GOLD

Soft Glow

Beautiful, soft light emits from the Splitty Desk Light. There are never any hotspots or shadow breaks thanks to the fully-diffused LED head.

Clutter-Free Spaces

The Splitty is not bound to the table. Keep desk space open with an optional wall mount, or one of our additional mounting options.

Flex your Power

The Splitty works with you to shine light wherever you need it. The incredibly flexible design boasts high degrees of freedom, so you'll never be left in the dark.

Control the Light

The Splitty light is controlled by the discrete on/off button on the top of the LED head. To dim, simply press and hold this button.

Splitty Pro features an occupancy sensor to maximize energy efficiency.

Fully Charged

Never be without a full-powered device. Charge your phone or other USB-compatible products with the built-in USB port
