The Splitty family boasts a wide range of flexible task lights. The original Splitty, available as a desk or floor lamp, delivers maximum functionality. A USB port is located in the lower body for convenient charging options. Splitty Reach features a double arm, offering even more flexibility. There are multiple mounting options for the desk lamps, including wall mounts, desk clamps and wireless charging bases. Splitty Pro and Splitty Reach Pro each feature a 2 amp USB port and built-in occupancy sensor to maximize energy efficiency.

LEED Information

Integrative Process
To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems.
Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting
To promote occupants' productivity, comfort and well-being by providing high-quality lighting.
Koncept's portable task lighting products provide more than three lighting levels that occupants can easily adjust to suit their needs. Furthermore, all Koncept lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provide the opportunity to reduce overhead lighting.
