Meet the Designers

Koncept was born in 2002 when industrial designer Peter Ng and his two sons, Kenneth Ng and Edmund Ng, joined forces in order to harness years of manufacturing and industrial design experience.

The Koncept team has since designed a range of products that have significantly influenced the LED task lighting industry. Their works have been featured in major press such as TIME Magazine, Oprah Magazine and Interior Design Magazine. Koncept has earned 50 international design awards to date, including the Red Dot Design Award, iF Design Award, and the Good Design Award.

Embracing modern, minimalist lines while maintaining rich functionalities, Koncept's designs strike the perfect balance between form and function.

Simplicity with Variety

The Z-Bar Wall Sconce can be used to highlight artwork or a mirror, or as its own contemporary work of art. It can be hung horizontally, vertically, even diagonally on a wall or ceiling. The slim LED bar is rotatable, allowing for freedom to direct the light.
